OPTIONAL FORM NO. 10 Approved For Release 2001/08/09 : CIA-RDP78-04608A000200010105-6

UNITED STATES GOVERNMENT

Memorandum

TO : Acting Director of Logistics

DATE: 5 March 1963

FROM : Chief, Transportation Division

SUBJECT: Monthly Activity Report (February)

1. PROJECTS AND STUDIES IN PROCESS

a. Less Than First Class Air Accommodations

Proposed revisions of the Agency travel regulations concerning air accommodations were completed and provide an eight-hour standard for use of less than first class. A summary of a study concerning the subject accompanied the proposals.

b. Publication of Regulatory Revisions

(1) Revisions of the Logistics regulations and instructions were published. These revisions reflect the transfer of the passenger vehicle function to Logistics Services Division, and provide policy guidance concerning the use of American flag airlines for cargo shipments.

(2) The Standardized Government Travel Regulations (SGTR's) were amended by the Bureau of the Budget to discontinue the temporary authority under which airlines could be paid for "no-shows", and to recognize the establishment on a permanent basis of the tariff provisions for airlines to pay penalties when they fail to provide space which has been reserved.

c. Statistics on United States Exports

In response to a request for advice from the Bureau of the Budget, a letter was prepared stating that this Agency has no serious objection to the publication of statistical data on United States exports.

SUBJECT: Monthly Activity Report

d. ████████ Station Request for Assistance

e. Annual TVA Analysis

The annual TVA report was completed and provides a comparative analysis of vehicles authorized as of 31 December 1962 and 31 December 1961.

f. Type II Accountability for Highway Branch

The recent report of audit of Transportation Division contained a recommendation that consideration be given to implementation of Type II accountability for the Highway Branch. This recommendation was discussed with Supply Division and initially approved for implementation. However, subsequent discussions between Supply Division and Technical Accounting Staff, Office of the Comptroller resulted in determination that workload would be increased within the Office of the Comptroller. The Audit Staff is being notified of non-concurrence in their recommendation, based on objections of the Office of the Comptroller.

g. Proposed Revision of Logistics Regulations

A proposed revision was completed to incorporate a policy statement that the Transportation Division shall determine the mode of transportation for Agency cargo shipments. This revision resulted from an Audit Staff recommendation.

h. Commercial Transportation Rates

A legal opinion was requested to determine whether the Agency may pay a higher transportation rate than the minimum
